Professional Summary

Final-year B.Sc. Computer Science student with strong proficiency in Python, Java. Passionate about building user-centric and data-driven solutions that create real-world impact, with a focus on clean interface design, usability, performance, and analytical insight. Recognized for excellent problem-solving ability, adaptability, and a collaborative mindset, with a proven capacity to learn and apply emerging technologies effectively to deliver meaningful digital outcomes.

Key Skills

- Programming Languages: Python, Java, SQL
- Frameworks & Tools: Flutter
- Web Technologies: HTML, CSS
- Core Competencies: Problem-Solving, Adaptability, Project Development, Team Collaboration, Quick Learning

Work Experience / Projects

Robotics Workshop Facilitator

- Conducted interactive robotics training sessions for high school students. Simplified technical concepts for beginners, improving student engagement and learning outcomes. Enhanced presentation, communication, and leadership skills through hands-on teaching.

Civic Lens (In Progress) – Student Project (2025)

- Architecting a civic data platform to improve transparency in government spending and procurement.
- Applied Flutter and Python to develop interactive modules and automate data processing, enhancing platform efficiency.
- Designed user-friendly interfaces to help citizens track public fund usage and promote accountability.
- Focused on community impact through digital transformation of public datasets.

Education

- **Bachelor of Science (B.Sc.) in Computer Science** St. Joseph's College, Devagiri | 2023 – 2026
- Higher Secondary Education-St.Mary's HSS Kallanode,Kozhikode
- Secondary Education-St.Mary's High School Kallanode,Kozhikode

Certifications

- Python Programming
 - UI/UX Designing using Figma
 - Flutter Development
-

Achievements

- Self-Motivated Learner: Independently mastered Flutter and Python beyond the academic syllabus to develop impactful projects.
- Recognized for initiative, adaptability, and continuous learning throughout academic and project work.
- Successfully led small team projects, demonstrating leadership and communication skills.
