Professional Summary

Final-year **B.Sc. Computer Science** student with hands-on experience in **Python, Java, Flutter, and SQL**, and a strong understanding of the software development lifecycle. Passionate about creating user-centric applications that solve real-world problems, with a focus on civic data transparency through the **Civic Lens** project. Recognized for strong problem-solving skills, adaptability, and teamwork, with proven ability to learn emerging technologies quickly and apply them effectively.

Key Skills

- Programming Languages: Python, Java, SQL
- Frameworks & Tools: Flutter, Git, GitHub
- Web Technologies: HTML, CSS
- Core Competencies: Problem-Solving, Adaptability, Project Development, Team Collaboration, Quick Learning

Work Experience / Projects

Civic Lens (In Progress) – Student Project (2025)

- Architecting a civic data platform to improve transparency in government spending and procurement.
- Applied Flutter and Python to develop interactive modules and automate data processing, enhancing platform efficiency.
- Designed user-friendly interfaces to help citizens track public fund usage and promote accountability.
- Focused on community impact through digital transformation of public datasets.

Education

Bachelor of Science (B.Sc.) in Computer Science

St. Joseph's College, Devagiri | 2023 – 2026

Certifications

- Python Programming
- Flutter Development

Achievements

- Self-Motivated Learner: Independently mastered Flutter and Python beyond the academic syllabus to develop impactful projects.
- Recognized for initiative, adaptability, and continuous learning throughout academic and project work.
- Successfully led small team projects, demonstrating leadership and communication skills.
